# Business Profile

**Plastic Pallets**

# Introduction Welcome

***PAK PLASTIC INDUSTRY L.L.C***

***Umm Al Quwain, UAE***

***Established: 2024***

***Plastic Manufacturing Industry***

# About The Company

## About Us

*PAKPLASTICINDUSTRY L.L.C is an innovative plastic manufacturing company based in Umm Al Quwain, UAE, founded in 2024. We are the first in the region to adopt Electric Injection Molding technology, significantly enhancing precision and energy efficiency. Unlike traditional hydraulic machines dependent on hoses, valves, and pumps, our electric machines use digitally controlled servomotors for precise control over injection, extrusion, clamping, and ejecting. This machine can utilize over 70% recycled materials, reinforcing our commitment to sustainability. This project is established on 100% self financing of the directors no loans are taken from the bank or any other financial institutions etc.*

## Vision

*“Our vision at PAK PLASTIC INDUSTRY L.L.C is to lead the region in sustainable and innovative plastic manufacturing by leveraging cutting-edge technologies. We aim to set new standards in energy efficiency, precision, and eco-friendly practices, fostering a future where high-quality production and environmental responsibility go hand in hand”*

## Mission

*At PAK PLASTIC INDUSTRY L.L.C, our mission is to produce high-quality, energy-efficient plastic products by integrating advanced technologies like Electric Injection Molding. We are committed to sustainability by using recycled materials and reducing energy consumption, ensuring eco-friendly practices.*

*Our focus is on precision, innovation, and meeting customer expectations, positioning us as a trusted leader in the industry*

# Our Services

*PAK PLASTIC INDUSTRY L.L.C offers wide range of high-quality plastic products designed for various industries. Our products portfolio includes...*

Service 1

***Plastic pallets***

Service 2

***Plastic containers***

Service 3

***Road barriers And other specialized plastic items***

Service 4

***BIG PLASTIC BINS***

Service 5

***Bottle caps***

Service 6

***Kitchenware***

Service 7

***Household products***

# Sustainability

*Sustainability is at the heart of our operations. We are proud to maintain a zero-waste production system, ensuring that no waste is generated during the manufacturing process. We strive to use 100% recycled raw materials wherever possible, making our operations both environmentally responsible and cost-effective. Our suppliers are also our customers, comprising some of the world's top-ranked, highly profitable companies. By partnering with these industry leaders, our business minimizes risk and enhances its potential for profitability. This interconnected relationship not only strengthens our position but also reinforces our commitment to sustainability through a mutually beneficial, circular supply chain.*

## Export Markets

**1. Kingdom of Saudi Arabia (KSA)**

further solidifying our reputation as a reliable exporter.*

# Customers

***We are privileged to work with several prestigious corporations in the region. Our major customer sinclude:***

- 1• Borouge, Abu Dhabi UAE***
- 2• National Industrialization Company (Tasnee), KSA***
- 3• Saudi Basic Industries Corporation (SABIC), KSA***
- 4• Petrochemical Industries Company (PIC) , Kuwait***
- 5• Oil Industry Company (OQ Marketing), Oman***
- 6• Aramco, KSA***

***These partnerships are a testament to our dedication to quality, reliability, and customer satisfaction.***

# Suppliers

***Our manufacturing excellence is supported by our trusted suppliers, which include:***

- 1. Borouge, Abu Dhabi UAE***
- 2. Aramco, KSA***
- 3. National Industrialization Company (Tasnee),***
- 4. Saudi Basic Industries Corporation (SABIC), KSA***
- 5. Petrochemical Industrial Company (PIC), Kuwait***
- 6. Oil Industry Company (OQ Marking), Oman***

***These suppliers provide us with top-quality raw materials, ensuring that we can meet the high expectations of our clients***

# **Plastic Manufacturing Business Background**

***1• Nafees Plastic Industries, Peshawar, KPK PAKISTAN***

***(Established 1991)***

***2• Nafpack Pvt Ltd, Lahore, Punjab PAKISTAN***

***(Established 2010)***

***Both companies are managed by my grandfather, Father and brothers, further showcasing our family's deep- rooted experience in the plastic manufacturing industry.***

## Task

*PAK PLASTIC INDUSTRY L.L.C is dedicated to enhancing the integration of Electric Injection Molding technology to improve production efficiency and sustainability. The company plans to increase the use of recycled materials in its processes, expand its market presence both regionally and internationally, and invest in research and development for product innovation. Training the workforce on new technologies and strengthening customer relationships are also vital to maintaining high standards and ensuring customer satisfaction.*

## Challenge

*The company operates within a dynamic and competitive market landscape, facing key challenges such as competition from established industry players, economic and market volatility, potential supply chain disruptions, and the ongoing need to align with evolving industry standards and regulatory requirements.*

## Our Solutions

*PAK PLASTIC INDUSTRY L.L.C provides innovative, eco-friendly plastic manufacturing solutions. We use advanced Electric Injection Molding technology to produce high-precision products while cutting energy use compared to traditional methods. With over 70% recycled materials in our production, we reduce environmental impact and support sustainability. Our efficient processes ensure consistent, high-quality results for industries like packaging and automotive. By prioritizing innovation and customer needs, we deliver reliable solutions that align with a greener future.*
